## **SCHOOLWIDE COMPONENT: COMPREHENSIVE NEEDS ASSESSMENT *ESEA §1114 (b)(1)(A)***

### **2021-22 Comprehensive Needs Assessment – *Narrative***

Comprehensive Needs Assessment was completed utilizing the data collected from MAP and Start Strong assessments along with a survey that was conducted (see attached) to determine the needs of the school. Attendance and graduation rates were also examined to determine if there was a need for interventions in those areas. PowerSchool reports, NJSmart reports, and school report cards were utilized to collect and compile data for student subgroups. Regarding classroom instruction, teachers in grades 6-8 implemented a new ELA series this year called Wit and Wisdom. Teachers were given training through virtual professional development sessions as well as ongoing grade level professional learning communities. The survey revealed that many teachers are still in need of additional professional development in Wit & Wisdom as well as interpreting and utilizing MAP data. The survey also revealed that teachers would like more support in the areas of RTI/MTSS supports and Tier I interventions. The teachers and administrators utilize data gathered from MAP assessments along with classroom assessments and performance to identify educationally at-risk students and begin to implement interventions in a timely manner. Interventions are provided in the classroom by the classroom teacher, through push-in and pull-out basic skills instruction, and through extended school day and extended school year programs. The transition from targeted Title I funds to schoolwide Title I funds would allow us to reach more students through interventions and enrichment programs at the 6<sup>th</sup> through 8<sup>th</sup> grade levels.
