We offer a Kindergarten Summer Orientation program that takes place before the school year starts. This program allows incoming kindergarten students to meet their teachers, explore the school, and familiarize themselves with the classroom environment in a relaxed, low-pressure setting. This early introduction helps reduce first-day jitters and gives both students and their families a clear understanding of what to expect in the coming school year. In addition, preschool students have the opportunity to participate in kindergarten classroom visits during the spring semester. These visits give them a chance to experience a typical kindergarten day, interact with future classmates, and become familiar with classroom routines and expectations. These visits help children feel more comfortable and confident about their transition to kindergarten.

As students approach the end of kindergarten, we also facilitate a spring visit from kindergarten to first grade. This visit provides students with the opportunity to meet their future first-grade teachers and see what their new classroom will look like. By participating in activities designed to reflect first-grade learning, students begin to adjust to the increased academic expectations and structure of first grade. Similarly, to further support students' transition, we offer a 1st Grade Summer Orientation program. Like the kindergarten orientation, this program provides students with a chance to explore their new classroom, meet their teachers, and participate in fun activities that give them a preview of what they will experience in first grade. This orientation also provides parents with useful information about what to expect in the upcoming school year, which helps both parents and students feel more prepared and excited about the transition.

For students with special educational needs, we provide Fast Fact Sheets that summarize important details from their Individualized Education Programs (IEPs). These fact sheets ensure that teachers and staff are aware of each student's unique learning needs, accommodations, and goals before the school year begins, helping to ensure that students with IEPs receive the necessary support right from the start. Additionally, the Preschool Intervention and Referral Team (PIRT) plays an essential role in identifying students who may require additional support during their transition to kindergarten. The PIRT team works with preschool teachers and families to create individualized plans for students who might need early intervention or specific accommodations, ensuring a smooth and effective start to kindergarten.
