NJDOE Guidelines

- Lead with the health, safety & wellness of students and staff as the top priority.
- Maintain the continuity of learning.
- Facilitate equity & ease of access to communications and resources
- Flexibility accommodate the needs & varying circumstances of all learners.
- Incorporate all stakeholders in the analysis & planning cycle.

NJDOE Guidelines

- Each district must develop, in collaboration with community stakeholders, a plan to reopen schools in the fall that best fits the district's local needs. **Each district must include an in-school component.**
- Each district must adopt a policy for **screening students and employees** for symptoms of COVID-19. Each district must have a clearly defined sanitation protocol.
- Although, some level of in-person instruction is required, the state is encouraging districts to **establish a hybrid approach that includes remote learning.**

NJDOE Guidelines

- Local districts will be required to establish a plan to ensure students and staff are practicing **social distancing**. Desks/workstations must be six-feet apart from each other. If that is not possible, schools may use physical barriers such as plexiglass to separate students.
- **School staff and visitors are required to wear face coverings**, unless doing so would inhibit the individual's health, or the individual is under two.
- Focus on **Social Emotional Learning** (SEL) & formative assessment/**student feedback**.

NJDOE Guidelines

- **Cohorting**: Schools may wish to identify **small groups of students** and keep them together to ensure that student and staff groupings are as static as possible, thereby limiting exposure to large groups of students. This must include minimal use of shared objects/tools/equipment.
- **Lunch**: Districts are being encouraged to **stagger mealtimes** to limit the number of students in the cafeteria. Use **Grab & Go** as much as possible. No self serve or buffet lines. Eat meals outside or in classrooms.
- **Recess/PE**: State officials are asking they **stagger** recess to limit the number of students on the playground. PE/recess areas/equipment need to be inventoried.
