Is candidate currently employed by District:
 No Yes

Is candidate a former employee:
 No Yes

(if yes, what position)

If yes, part time or **full time** (circle one)

Check references/review district personnel file?

No Yes

Board Action Requested: I am requesting that Physics of the Cosmos added to the Glassboro High School Program Planning Guide for the 2024-2025 school year.

Details and ramifications:

GHS currently only offers Conceptual Physics and AP Physics I and AP Physics II. The addition of this proposed course would make our high school more rigorous and would be a perfect compliment to our existing offerings for our students.

Positives:

Adding these courses will make GHS more competitive with other area high schools who offer a variety of electives.

Concerns:

No new staff would be needed to teach these courses. Students would take this course in addition to, or in place of, Conceptual Physics. Other sections may become larger if students choose to take this course as an elective, in addition to another physical science course.

Other Comments: This course would reach our goal of providing additional electives and a wider variety of courses to meet graduation requirements. It is a perfect addition to our STEM offerings.

FOR OFFICE USE ONLY:

Board Date: _____
