Curriculum Committee Mission Statements 2015-2016

ELL Curriculum Committee:
The mission of the Bilingual Parent Advisory Committee is to prepare all of our students to meet the challenges of a rapidly changing, technology oriented, and diverse society. We want to ensure that linguistically diverse students have equal status and access to quality education. We will continually strive for excellence in all aspects of the education process and teach our students to understand and appreciate human and cultural diversity. We will use the resources of the entire community, including students, parents, teachers, staff, administrators, and business leaders. We will encourage students to be lifelong learners, to demonstrate high achievement, and to develop the skills and characteristics needed to enjoy happy and successful lives.

World Language Curriculum Committee:
The goal of the World Language Committee is to articulate and improve the world language program between grades 1 and 12. In order to accomplish that goal we will share the best practices and materials. We will also plan field trips for students (inter-district and out of district) and world language teachers to share language/heritage with students and/or explain the high school world language program.

Music Curriculum Committee:
The goal of the Glassboro Public Schools District Music Committee is to work collaboratively to improve student achievement, increase student participation and promote our school music programs.

Science Fair Committee:
This year's Committee Goal is to foster lifelong scientific inquiry in students.

Nurses Curriculum Committee:
The Glassboro School Nurses provide highly individualized and effective assessment of and care to our students to maximize their physical, emotional, and social well-being in an effort to help the students achieve optimal student academic success.

Technology Curriculum Committee:
The mission of the Technology Committee is to help keep the Technology Department abreast of emerging classroom technologies, review and aide in selection of technologies to be implemented and educate colleagues on the use of these technologies. Members will also disseminate on going technology plans, status and implementations, as outlined by the Director of Technology, with their respective buildings.
