Subject: RE: F & P Proposal

Walt:

We have reviewed the March 19, 2014 proposal from French & Parrello Associates ("F & P"). The proposal contemplates several tasks, including:

- Preliminary Assessment to establish that no gasoline USTs were ever located at the Intermediate School property;
- Drum Disposal for soil and groundwater waste from prior investigation activities;
- Preparation of a Remedial Action Workplan to address the fuel oil impacted soil at the school; and
- Project management.

The proposal is in a total sum of \$14,326 for the above tasks. The proposed tasks match discussions which you have had with F & P regarding next steps to continue to remedy the fuel oil issue at the school. As such, the proposal appears appropriate. We suggest processing as a change order to the existing professional services contract with F & P. Please contact us with any questions or concerns.

Subject: F & P Proposal

Robert,

As previously discussed, will you be sending me a written recommendation for the F & P proposal? The committee meeting is approaching and I need to add to the agenda.

Thanks in advance,

Walt.
