Mindy,

I received your phone message yesterday indicating that activity LSR100002 related fees of \$1800 were cancelled and the activity was administratively closed for above case, in reference to the offsite source incident number 13-02-04-1204-10.

As a result, no further action or payment for this activity is required from Glassboro Board of Education.

Thank you very much for resolving this issue.

Regards

Thank you Dudley for your patience. I will speak with folks about the feasibility and process for addressing the off-site plume as we discussed and get back to you as soon as a plan of action is agreed upon. In the meantime, please don't hesitate to call/email with any questions.

Mindy,

Attached is the NJDEP letters and invoice for the fees associated with the case number 13-02-04-1204-10 we called in in 2013 for the offsite gasoline issue.

As we discussed, FPA and GBE agree with your plan to separate the 2013 case number from the 2001 UST fuel oil case number. Further the 2013 case # should be attached to the cases for the 2 offsite gas stations adjacent to the school. The offsite source was confirmed by the Unknown Source Investigation conducted by NJDEP in 2013.

Please confirm and let me know when this is resolved.
