December 18, 2019 Board Meeting

Recommend Board approval for payment for 12 teachers to participate in an Extended School Day program at Dorothy L. Bullock School to target 2nd and 3rd grades for Math starting the first week in January 2020. Funding provided through ESEA-ESSA carryover funds at the hourly rate of \$37.00.

Currently, we do not offer basic skills instruction in Mathematics at the Bullock School. It will be beneficial to offer support afterschool to assist the students with the NJSLs Assessment. The following concepts will be addressed listed below. Students were identified from the fall administration of the MAP Assessments.

- Operations/Algebraic Thinking
- Number and Operations in Base Ten and Fractions
- Measurement/Data
