Re: Action Item – Recycling

The Technology Department would like to list the following retired Dell equipment on GovDeals. *(Any tech equipment containing a hard drive will be sanitized or the hard drive removed prior to sale. Any equipment that does not sell at auction will eventually be responsibly recycled)*

- 500x Dell 3100 Chromebooks

In addition to the above being sold, the following miscellaneous items will be recycled at no cost to the district.

- Old monitors, keyboards, mice, etc.
- 13x projectors and hardware
- Miscellaneous cables, batteries, cell phones, PA system, server rails, etc...
