

Health and Safety Evaluation Of School Buildings Checklist 2020-2021
County: <u>Gloucester</u> <u>District Occupying Building: Glassboro Public School</u>
(check one) Leased Owned School Building: T. Harvey Rodgers School
completed By: Milanie Sweeney and Rich Booth Date: 1/8/21
This form shall be used for the evaluation of school buildings (pursuant to 6A:26-6.1 and 6A:26-8.1) Traditional Public School Districts (owned or leased), Private Schools for the Disabled, Charter Schools, Renaissance School Projects and any other setting used for instruction. This evaluation checklist shall be completed annually by appropriate district personnel and kept on file for inspection or other legal issues. These indicators cover regulations issued by NJDOE, NJDCA, NJUCC, OSHA. The emphasis of this evaluation is for the health and safety of students and staff even in the absence of a specific Statute or Code. The items listed are not mutually exclusive of other findings a monitor/inspector may site. See "Facility Checklist Instructions and Guidance" for additional information.
Section A: 100% Items

(this section must have full compliance with items)

100% Compliance	Van	NI-	N1 / A	Miningles I accelous
1. A current certificate of compliance with the Uniform Fire Code has been issued by the local or State fire official/inspector within the year and posted in a conspicuous location. (or current abatement inspection is available)	Yes	No	N/A	Violation Location
2. A current inspection report of the local health official (kitchen, cafeteria, pool, etc.) is available.				
3. A 3 year asbestos management plan, as required by A.H.E.R.A., is available including current 6 month surveillance letters. If constructed without asbestos, a letter of certification from the architect is available.				
4. An annual inspection report of the Department of Environmental Protection for the operation of a sewage treatment plant, where applicable, is available.				
5. Current boiler inspection certificate(s) posted at site of boiler.				
6. Current license(s) for high and low pressure boiler operators, as required by code, are properly posted.				
7. Current drinking water supply inspection reports are available to comply with the Safe Water Drinking Act. (N.J.A.C 58:12A-1) (6A:26-12.4)Also, evidence of testing of water for lead has been provided by the district through annual submittal of the Lead Testing Statement of Assurance.				

Cu	rrent Licenses And Certificates #1 to #10	Yes	No	N/A	Violation Location
8.	One fire drill and <i>one</i> school security drill are held each month; [See"Checklist Instructions" for Certificate of Assurance]18A:41-1	V			
9.	Right To Know requirements are properly posted and MSDS reporting materials on file for review.	V			
	District has defibrillators identified with appropriate signage and made available in an unlocked location on school property, which is accessible during the school day and any other time in which a school-sponsored athletic event or team practice, in which pupils of the district are participating, is taking place and is within reasonable proximity of the school athletic field or gymnasium, as applicable (Janet's Law18A:40-41a-41c)	V			
	its/Exterior #11 to #12	Yes	No	N/A	Violation location
11.	Exterior switches and receptacles are covered by securely fastened weather-proof plates and fixtures are securely mounted with no exposed wires.	V			
12.	 All exterior exits are in good condition; readily accessible and free of obstructions for use in an emergency; including: a. Fire escapes and/or exterior stairs can be safely negotiated. b. Panic hardware is provided on exit doors of all spaces with an occupancy load/capacity greater than 50. 	V			
LIPOTE TO					
Inte	erior #13 to #21	Yes	No	N/A	Violation Location
-	All electrical outlets; switches, receptacles and junction boxes; electric wires; fuses and/or circuit breaker panels; etc. are properly covered and/or secured and/or protected.	Yes	No	N/A	Violation Location
13.	All electrical outlets; switches, receptacles and junction boxes; electric wires; fuses and/or circuit breaker panels; etc. are	Yes	No	N/A	Violation Location
13. 14.	All electrical outlets; switches, receptacles and junction boxes; electric wires; fuses and/or circuit breaker panels; etc. are properly covered and/or secured and/or protected. Sufficient access and working space is provided and maintained around all electrical spaces. Items, especially combustibles, are a minimum of 36 inches from electrical power sources or equipment; i.e.: circuit breaker panels, fuse	Yes V	No	N/A	Violation Location
13. 14. 15.	All electrical outlets; switches, receptacles and junction boxes; electric wires; fuses and/or circuit breaker panels; etc. are properly covered and/or secured and/or protected. Sufficient access and working space is provided and maintained around all electrical spaces. Items, especially combustibles, are a minimum of 36 inches from electrical power sources or equipment; i.e.: circuit breaker panels, fuse boxes, transformers. Instructional areas are free of all unapproved construction;	Yes V	No	N/A	Violation Location
13. 14. 15. 16.	All electrical outlets; switches, receptacles and junction boxes; electric wires; fuses and/or circuit breaker panels; etc. are properly covered and/or secured and/or protected. Sufficient access and working space is provided and maintained around all electrical spaces. Items, especially combustibles, are a minimum of 36 inches from electrical power sources or equipment; i.e.: circuit breaker panels, fuse boxes, transformers. Instructional areas are free of all unapproved construction; e.g.: walls; partitions; doors and stairs; etc. The hardware on doors of any space occupied by students shall permit egress from the room at all times. Key-operated locks, thumb-turn locks, hasps dead bolts, slide bolts or similar types of locking devices shall not be permitted. 6A:26-8.1 (i2) Unobstructed vision panels with code approved glass are installed in doors opening into corridors. Interior glazing shall be safety glazing. 6A:26-8.1 (i3)	Yes V	No	N/A	Violation Location
13. 14. 15. 16.	All electrical outlets; switches, receptacles and junction boxes; electric wires; fuses and/or circuit breaker panels; etc. are properly covered and/or secured and/or protected. Sufficient access and working space is provided and maintained around all electrical spaces. Items, especially combustibles, are a minimum of 36 inches from electrical power sources or equipment; i.e.: circuit breaker panels, fuse boxes, transformers. Instructional areas are free of all unapproved construction; e.g.: walls; partitions; doors and stairs; etc. The hardware on doors of any space occupied by students shall permit egress from the room at all times. Key-operated locks, thumb-turn locks, hasps dead bolts, slide bolts or similar types of locking devices shall not be permitted. 6A:26-8.1 (i2) Unobstructed vision panels with code approved glass are installed in doors opening into corridors. Interior glazing shall	Yes V	No	N/A	Violation Location

Interior #13 to #21	Yes	No	N/A,	Violation Location
20. Dangerous chemicals (i.e., liquefied petroleum gas/propane) and/or explosive materials (i.e.: gunpowder; picric acid) are not stored/present in the building. If needed, flammable and combustible materials are properly stored/maintained (i.e., in properly rated cabinets; not in boiler room/hazardous areas).			V	
 21. Carbon Monoxide Detectors (new) Must be in the vicinity of all fuel burning appliances. Gas and oil heating systems: Boilers, Furnaces, central and unitary equipment. Generators: portable and permanent. Natural gas and propane appliances: Water heaters, ranges, stoves, ovens, laundry washers and dryers Fireplaces Required in hallways connected to space with the source NJAC 5:70-4.3(a), NJAC 5:70-4.9(d) and NJAC 5:70-4.19 (d) 	V			
Vocational/Laboratories #22 to #25	Yes	No	N/A	Violation Location
 22. Power machinery and equipment, as well as science labs, have appropriate safety features in place, including as applicable: a. Appropriate placement on the floor and required point of operation guards to protect users from injury due to moving parts. b. Clearly visible and accessible push-type emergency cut-out switches at appropriate locations within shops to deenergize electrical supply to nonportable machinery. c. Non-portable machinery provided with magnetic type switches to prevent automatic restart upon restoration of power after an electrical failure or reactivation of the emergency cut-off switch. d. Key-operated electric solenoid shut-off valves on natural gas lines in science laboratories and shops constructed after 1979. On all other gas lines there is an emergency shut off valve which is clearly marked and accessible. 			V	
23. At a minimum, one # 20 BC rated fire extinguisher is provided in each laboratory and vocational area.			V	
 24. Adequate eye and body protection is provided, including: a. Eye protection devices (glasses, goggles) for students and faculty in each laboratory and shop area, including appropriate provision for their sanitation. b. Emergency eyewash device(s), with 15 minutes continuous flow, where caustic or corrosive materials are used. c. An emergency cold-water shower for chemistry laboratory if constructed after October 1985. (NJAC 6A:26-12.5) 			V

Section B: 80% Items

(Must be compliant with 80% of these items to pass along with corrective action on the non compliant items)

	Compliance	HIGH FOR	810 N. H	+DWC-5	TO SUMESSIVE WAS ASSESSED.
	s/Exterior #1 to #4	Yes	No	N/A	Violation Location
	 No evidence of major exterior building structural damage. Example(s) would include: a. Exterior walls appear free of structural cracks, loose masonry and crumbling parapets; lintels appear free of rust and flaking. b. Gutters and downspouts appear to be in good condition and are secured to the building; runoff does not appear to be obstructed or create drainage or soil erosion. 				e:
	All exterior receptacles are GFI protected in accordance with code.	\checkmark			
3.	All school grounds, including general purpose play areas and athletic fields, are free of holes; glass; stumps, roots; rocks and other hazardous obstacles. Fences are maintained and are free of holes. The outside physical education area for students shall include, but not be limited to, sufficient space, equipment, and safe surfaces for the temporary facility enrollment and program needs and be protected from hazards or traffic conditions. 6A:26-8.1ix				d.
4.	Playground area and equipment appear to be in safe operating condition and in compliance with code and district maintains documentation of compliance and regular (annual and/or monthly) inspections.				
Inte	erior Items #5 to #26	Yes	No	N/A	Violation Location
5.	All interior exits and corridors are in good condition; readily accessible; and free of obstructions and/or excessive materials which would hinder exiting.				
6.	Emergency evacuation egress procedures are posted at a visible height and standard location in all areas. 6A:26-8.1 (i4)	V			
7.	Doors leading to interior courtyards are clearly marked: "Not an Exit."				
8.	Handrails on both sides of interior stairways, guardrails, and interior stair treads are free of surface features which may cause injury and/or are properly secured. Interior stair treads do not show evidence of extensive wear and are generally in good repair.			V	
9.	Stage curtains need to indicate flame proof or flame retardant and certificates are on file.	V			
10.	All education spaces shall be equipped with a communication devise/system connected to the main office and capable of emergency communication to local authorities or 9-1-1. 6A:26-8.1 (i6).	✓			

Page 5 of 9 Revised July 2020

Interior Items #5 to #26	Yes	No	N/A	Violation Location
 11. Electric outlets and/or wiring appear appropriate, including: a. GFI protection for receptacle(s) within 6 ft of water in accordance with code. b. Electrical extension cords and surge protectors used appropriately, with extension cords only used for temporary need(s). c. Sufficient electrical duplex outlets shall be provided to satisfy the program needs as provided in N.J.A.C. 6A:26-6.3 6A:26-8.1(vii2). 	V			Violation Education
12. Nurse's Office: District boards of education shall provide the necessary facilities, equipment and supplies for the performance of the duties required under State law and the rules by health services personnel. (6A:26-12.3 & 6A:26-6.3(b))	V			
13. Individual or central mechanical ventilation unit(s) are operating in all student and staff occupied rooms/areas and toilet facilities; air conditioners are operational in windowless interior areas. Heating and ventilation requirements shall be as set forth in N.J.A.C. 6A:26-6.3 and the UCC. 6A:26-8.1 (iii).	V			
14. Lighting levels in all instructional areas at least 50 foot candles, as measured with a light meter, comply with code and lamps/bulbs are covered with a lens cover or equivalent protection. (6A:26-8.1(vi) & 6A:6.3(g)(1))	V			
15. Instructional areas have no unauthorized and/or potentially hazardous materials/equipment in rooms. 6A:26-8.1 (i1)	$\sqrt{}$			
16. A chalkboard or whiteboard, and/or display board is provided in each instructional space and is free of cracks and jagged edges. 6A:26-8.1 (vii1)				
17. Ceilings, walls and floors are free of holes, sags, and evidence of water damage. The average ceiling height shall be at least 8' feet for instructional spaces in temporary facilities in an existing public school, in a district owned facility and in rented or leased buildings not on school district owned sites. 6A:26-8.1 (ii)		V		
18. Area and floor drains, where provided, appear to be in working order and covered with appropriate plates; unused (abandoned) waste lines (drains) are sealed off and capped.	V			
19. Floors throughout the school are clean and free of trash, as well as appear free of slipping, tripping and / or other hazards. Egress through halls and exits are clear and accessible.	\checkmark			
 20. Supplies and materials are neatly and appropriately stored: a. Storage racks/shelving over 6 feet in height are properly secured from tipping. b. In general, there is no storage within 24 inches of a ceiling. In buildings with sprinkler systems, storage is at least a minimum of 18 inches below sprinkler head deflectors. c. Storage is organized to allow safe access through space. 	√			

inte	erior Items #5 to #26	Yes ,	No	N/A	Violation Location
21.	Provision shall be made for storage of students' clothing in				<
	other than a corridor or exitway. Student lockers are usable;	LV			
	i.e.: doors, handles and locks are operable. 6A:26-8.1 (i7)				
22.	Drinking fountains are provided with sufficient water pressure	1./			
	or access to water coolers is readily available. (6A:26-12.4)				
	Potable water shall be available and drinking fountains shall be				
	provided for students in cafeterias, preschool and kindergarten				
	programs in accordance with N.J.A.C. 5:23-7; 6A:26-8.1(v).	,			,
23.	Toilet facilities shall meet existing UCC requirements for the E	1./			
	Use Group as determined by the construction official. Toilet				
	facilities shall be available within a reasonable distance not				
	more than one floor away, and shall be equipped with an				
	exterior operable window sash or mechanical exhaust				
	ventilation. 6A:26-8.1 (iv)	,			
24.	Food and nonfood items (i.e.: cleaning products, etc.) in home				
	economics rooms & cafeteria are stored separately.	L V		Ш	
25.	Non-instructional areas are free of all unapproved				
-0.	construction; e.g.: walls, partitions, doors and stairs.				
26.	Furniture and equipment that is in good condition and suitable				
	for the age and size of the students and purposes of	لنا			
	instruction shall be provided; NJAC 6A:26-8.1(vii)
