**Work Summary:**

- Server OS upgrade and updates have been completed. Application upgrades have also been completed.
- Most of the summer has been spent imaging student laptops. As of the morning of 08/20 Rodgers, Bullock and GIS are completed. GHS is  $\frac{3}{4}$  completed with sophomore units in process (9, 11 & 12 completed). Bowe will be started by 8/26.
- All laptops for GHS & GIS will be ready for student distribution beginning 8/27.
- Installation of equipment required for automating lockdowns has been completed. We are finalizing and implementing programming of hardware relays with Informacast system. We will begin testing by the end of this week.

**Work Order Statistics will be furnished again in September**

- There are 58 total work orders open as of 12pm on 8/20/2019
- There have been 2,307 tickets closed as of 12pm on 8/20/2019
