

Technology Report

Technology Department Report January 11, 2020 – February 11, 2020 submitted by George Weeks

Work Summary:

- Continued PARCC and MAP testing until end of January. No issues reported.
- Interviewing candidates for PC Support Technician openings. One candidate selected by turned down offer. Another candidate selected and up for approval at February BOE meeting. A second candidate is ending reference checks and meeting with superintendent.
- Met with vendor to and finalized additional panic button pull stations and additional cameras. Quote forwarded on Feb 10th.
- Finalized paperwork with vendor and engineer engaged to work with George to finished lockdown process. Programming completion anticipated by 2/14. Training and testing to be completed by 2/29.
- Met with vendor regarding updates to website and new ADA compliance scans. Site is 85% compliant. Per vendor anything above 60% is currently considered safe and won't get an audit. The 15% of items out of compliance are mainly state provided PDFs of old data scanned as images instead of OCR scan.
- Met with several vendors to review upgrades for firewalls and web filters for July 2020.
- George and Chuck attended Techspo conference Jan 30 & 31. George presented with Impero on our 1:1 implementation
- Attended budget meetings
