

Glassboro Board of Education

Technology Report

Technology Department Report September 14, 2021 – October 13, 2021 submitted by George Weeks

Work Summary:

- Board of Education email links were put on the website after the last meeting.

The screenshot shows a website page for the Glassboro Board of Education. On the left is a navigation menu with four items: 'Board of Education', 'District Mission Statement', 'Board Committees and Appointments' (which is highlighted in a dark red box), and 'Member Gallery'. The main content area is titled 'Board Committees and Appointments' and includes a 'COMMITTEES' section. It contains a note that board member emails are in the format 'lastname@board dot gpsd dot us'. It lists three committees: the Administration Committee (with chairperson June Longley and members Ben Stephens and Dr. Stacie Tattersdill), the Instruction Committee (with chairperson Elizabeth Volz and members Ryan Hughes and June Longley), and the Operations Committee (with chairperson Chris Esgro and members Michele Ricci and Lizbeth Roth). An 'Edit Page' button is visible in the top right corner.

- We have had an increase in phishing attempts from email data crawled from our original directory. The Staff Directory has been reset to help prevent email crawling by limiting the display to 5 names per search page. The new version was re-activated today. There is alternative search and display we are working on with Blackboard support.
- We continue working with admin, parents and police to track units not returned. We have had several devices returned by parents over the past month.

My staff is working on another physical count and cross-reference of all service tags against the delivery inventory. Due to missing a couple days due to family illness the final cross-reference was not completed in time for the meeting tonight. It will be completed by Friday October 15.

- Where we know that a laptop is missing with a student, the appropriate forms are being completed and we are filing police reports and activating our tracking service. We have not had any updates on these yet.
