Glassboro Board of Education

Technology Report

Technology Department Report
Sept 9th, 2022 – Oct 7th, 2022
Submitted by Chuck Baur and Susan Kornicki

Work Summary:

1. Repairs – Parts shortages continue to be an issue however we are slowly getting parts in from Dell for repairs.
2. Start Strong testing has been successful in GHS, Bowe, and Bullock schools thanks to device preparation.
3. New Barracuda backup unit has taken over as the primary backup device for the district. All data has been copied over to the new unit and is now live.
4. Genetec security camera server upgrade will begin on Oct 7th. This will replace our aging security camera servers and allow PD access into the Glassboro camera system.
5. We continue to plan and prep for two larger projects which is Phase II of network upgrades and Nutanix virtual server farm replacement.
