Technology Department Report

May 10th, 2025 – June 6th, 2025

Submitted by Chuck Baur

Work Summary:

- The district is migrating to the alerts portion of the new website replacing SchoolMessenger for mass communications beginning July 1st.
 - Please see below notes regarding the new platform.
- NJSLA testing has concluded and was successful in all four schools.
- End of year device collections have begun at GHS and Bowe Schools. The IT Dept will be collecting all district student devices for cleaning, inventory, and repairs for the 25' – 26' school year.
- Projects for the summer include but are not limited to:
 - New Firewall
 - New Endpoint Protection
 - Enhanced Wi-Fi Security
 - Genetec Software Upgrades
 - Classroom Management Upgrade
 - Firmware and Software Maintenance on Access Points and Network Switches
