

Technology Report

Technology Department Report

July 8th, 2025 – August 11th, 2025

Submitted by Chuck Baur

Work Summary:

- New firewall installation has been successfully completed.
- Successful classroom management upgrade to Senso 2.0 has been completed.
- Firmware upgrades and security patches to network access points and network switches have been successfully completed.
- Successful migration of Kace System Management Appliance, Kace System Deployment Appliance, Adlumin Collection, and 2x Umbrella DNS forwarders from VMware to Nutanix virtual hypervisor, eliminating the need for VMware and its renewal costs.
- Successful implementation of Gaggle's new student safety feature [Web Activity Monitoring](#)
