Technology Department Report

February 13th, 2025 – March 4th, 2026

Submitted by Chuck Baur

Work Summary:

- Power distribution units (PDU's) have successfully been installed at BOWE school.
- In preparation for state testing student device checks have commenced beginning at Glassboro High School.
- Certified POTS lines have been installed at the 6 district buildings, replacing some of our existing copper POTs lines. These certified POTs lines serve as our backup 911 lines.
- Onboarding of the Swivl M2 AI platform has been completed.
