

Technology Report

Technology Department Report

May 15th – June 11th, 2026

Submitted by Chuck Baur

Work Summary:

- Successful NJSLA testing campaign across the district.
- District is positioned to replace its current classroom management solution Senso with Securly Classroom, Filter, and Aware saving the district a significant amount of money while enhancing our teacher experience, web security, and student wellness.
- End of year device collection has been completed. IT dept. will triage, repair, and re-inventory all devices, getting them ready for the 26'-27' school year.
- Meeting w/ Rowan's technology dept. took place to outfit the two pre-k classrooms with technology.
- Demo panels of ViewSonic Smartboard have arrived and are currently being evaluated by staff and the technology dept in preparation for potentially replacing some of our existing aging fleet.
