

## School Board Notes • May 13, 2014 • Vol. XXXVII No. 39

### Master Board Members: the Class of 2014

Below are 68 local board members who have recently earned the Master Board Member designation through NJSBA's Board Member Academy. To achieve the rank of Master Board Member, a person must first obtain the designation of Certificated Board Member and then earn 20 additional credits. The training addresses the issues of leadership; school/community relations; effective meetings; strategic planning; group dynamics; board member ethics; school finance; labor relations; and school law. Candidates must also demonstrate mastery of the core areas.

This next level of certification, the Master Board Member, builds on the CBM (Certified Board Member). Programs are designed to enhance interpersonal and leadership skills enabling members to better govern the course of education in their schools. To receive the MBM (Master Board Member), members must have earned a CBM and 20 additional credits. Board members must meet the all of the MBM requirements.
