### ELA/Sc/SS Curriculum Talking Point

Rob will brief the board on the impending purchase of the curriculum, which differs from anything we've done here for some time in that its focus is on **building content knowledge, not just skills**. It makes use of cogent and sensible curriculum maps and will allow teachers to customize lessons within those maps. It also coordinates well with our current Foundations and Strategies for Writer's program. The publisher is Great Minds, the same publisher as our Eureka Math program. Please follow [this link](#) for the Edreports rating.
