County of Gloucester complies with all state and federal rules and regulations that discriminate in admission to, use of, or operations of its programs, plans, and activities. In addition, County encourages participation of people with disabilities in its programs and activities and its special services to all residents 60 or of age and older. Inquiries regarding this policy may be directed to the County's Accessibility Coordinator at (856) 307-6602, New Jersey Relay Service 711.

The Gloucester County Engineering Department in conjunction with the NJDOT, Rowan University, and the Borough of Glassboro has conducted a Concept Development study to explore the installation of a bypass of Route 322 on and around Rowan University. The study concluded that there is a public need to reduce the impact of vehicular traffic in that area thereby addressing the safety of pedestrians, bicyclists, and motorists, improving traffic operations, and reducing truck traffic in the vicinity of the University.

The Route 322 Bypass of Rowan University Concept Development Study was initiated to address operational and safety concerns along Route 322, Route 47, and High Street around Rowan University for this project. The proposed downtown business alternate bypass would utilize Girard Road and High Street to divert car traffic around the university. The County also required that a truck bypass be studied that will utilize Ellis and Sewell Streets as well as Rt 55 & Dr. Leo McCabe Boulevard to divert Route 322 truck traffic to roadways outside of downtown Glassboro.

As with many road improvement project of this magnitude, privately owned properties located along the project area often must be partially or totally acquired as part of the engineering design. Your property has been identified as one that is along the project route and will be impacted by this project. We would like to meet with you and discuss the project and steps to expect moving forward. This meeting is for information purposes only.

Our office is beginning to schedule meetings with the property owners. Please see the below a list of dates and times to choose from to schedule a meeting with our office:

- April 24, 2023 between 11 am and 4 pm
- April 25, 2023 between 11 am and 4 pm
- April 26, 2023 between 8:30 am and 4 pm
- April 27, 2023 between 1 pm and 4 pm
- April 28, 2023 between 1 pm and 4 pm
- May 1, 2023 between 10 am and 4 pm
- May 2, 2023 between 8:30 am and 12 pm

Please contact the engineering office at 856 307-6600 to schedule a time that is convenient for you. Meetings will be held at 2 South Broad Street, Woodbury, NJ 08096.

Sincerely,

Barry C. Beckett, PE  
County Engineer
