Re: Agenda Item for May 17, 2022

Please find the following proposal for summer sub help in the grounds department. We are seeking to hire the following:

Two (2) students @ \$13 per hour for 10 weeks/320 hours
Cost: \$8,320

This will assist in maintaining our grounds and assisting in the move of the schools. We have been unsuccessful in obtaining applicants for the one vacancy and have been notified that by the end of June we will be losing another grounds person. Having subs will assist with vacancies, vacations and any other duties as assigned. The funds are available in the 2022-23 school year, local funds.
