RE: Summer Feeding

For the last two years , the Board has engaged with the Food Bank of South Jersey to provide meals for Extended School Year students. The service has been spotty at best. Meals are often late or do not come at all and there is a lack of variety in the menu offerings. With the implementation of a summer enrichment program at the Rodgers and Bullock Schools the Board should re-examine the possibility of NutriServe provide the summer meals. The additional students attending the summer programs may make the program more cost effective.
