**Board Action Requested:** Approval of purchase of Varonis Software (DatAnywhere and DatAdvantage) from Core BTS off of the GSA contract. Purchase is \$56,328.89 and is covered by network and security budget under the 2015 Referendum.

**Details and Ramifications:** As part of security enhancements planned in the referendum technology upgrade we need to approve the purchase of Varonis Software's DatAnywhere and DatAdvantage. These products provided secured web access to network data resources for staff as well as providing monitoring and reporting of user activity on the network. These products are not available under NJ Contract pricing but are available under GSA pricing. Core BTS had the best GSA pricing.

**Positives:** Provide secured access for staff to network storage devices when they are out of the building. Provide Tech department with monitoring and reporting of our security directory activity of users and data files they are accessing.

**Concerns:**
